

7's

Objective

Be the first to play all your cards by building sequences outward from 7s.

Setup

Use one 52-card deck. Deal all cards evenly. Suits matter.

Gameplay

Start with 7 of diamonds in center. Players take turns adding next higher or lower card of same suit (e.g., 6♦ or 8♦). If you can't play, pass. You can start new suits by playing their 7s.

Winning

First to play all cards wins. If no one can play, fewest cards left wins.

Optional Variants

- Play with two decks for larger groups.
- Add scoring: cards left count as penalty points.
